

## Campus Location

Lemley Campus @ Memorial Complex

## Occupational Focus

If you want to take an interest in photography to the professional level, Tulsa Tech's Photography Technology program provides the format for joining artistic ability and creativity with techniques to capture moments in time that are relived with each viewing of the photograph. You will study the photographic process from selection of camera and film to posing to lighting and composition and film development techniques for all types of photography ranging from portrait to still life to commercial and with both traditional and digital methodology.

Guided by a skilled professional, you will have the opportunity to build a professional portfolio as you develop your own personal style and techniques for both black and white and color photography. You will have a solid foundation to enter the workforce or apply credit toward an associate degree and beyond

For information concerning working conditions, physical requirements, employment and job outlook please refer to the Occupational Outlook Handbook (OOH), 2010-11 Edition at <http://www.bls.gov/oco/>.

## Who Can Attend?

*\*Tuition subject to change without notice*

## Books/Supplies

No textbook charge for high school students within Tulsa Tech District  
Adult - Photography book, film and paper available through campus bookstore. See campus bookstore for prices.

## Career Majors

### Photographic Technician - 525 Hours\*

This Career Major will provide the basic principles of photography including film and digital techniques. Students will determine proper medium formats, lenses, lighting and create professional portfolios. This will provide the student with the skills required to gain employment as a photographers assistant.

### Digital Photographer - 525 Hours\*

Students will gain advanced digital photography skills in this Career Major. Students will create digital images, promotional projects and learn photojournalism techniques. Upon successful completion of this major, students will be eligible to sit for the state competency exam and work as a digital photographer.

*\*Career major, courses and hours are subject to change without notice*

## College Credit

College credit is available for the majority of Tulsa Tech's full-time programs through Rogers State University, Oklahoma State University-IT or Tulsa Community College. Advanced standing credit may also be granted for some of our programs. The number of hours varies depending on the program length, the college granting the credit, and the student's plan of study. Check with your Tulsa Tech counselor for more information.

Tulsa Tech does not discriminate on the basis of race, color, religion, national origin, gender, age, marital or veteran status, or disability.

Tulsa Tech is accredited by the Oklahoma Department of Education, the Oklahoma Board of Career & Technology, & the North Central Association--Commission on Accreditation & School Improvement.

Also, where available, our programs are accredited by the specific industry standards associated with their industry.

To remain current with the demands of business and industry, curriculum is periodically revised. The revision may change the number of Tulsa Tech classes that apply toward the college credit. The number of credit hours identified in the agreement the year the student completes the class will determine the credit hours the student receives. Conditions are based on the actual agreements and are subject to change annually.
