

Private Pilot Ground School

Description

The first step in flight training actually begins on the ground. Tulsa Tech's Private Pilot Ground School program is for secondary students who wish to explore their interests in aviation while gaining a much keener insight into safely operating an aircraft. This course is more in-depth than most other ground schools offered in the Tulsa area, specific for high school students, and includes fun and exciting experiences for students in an advanced curriculum. Through the Education Alliance Agreements between Tulsa Tech, Tulsa Community College and Oklahoma State University, students will encounter dynamic classroom and laboratory sessions. Those interested in pursuing a career in aviation may elect to continue their pilot training at TCC or take Tulsa Tech's Aviation Maintenance Technology program to earn an A&P license. High school students come prepare to fly with Tulsa Tech!

- Discover careers & opportunities in general & commercial aviation in this one semester course
- Learn the basics of flight planning & navigation
- Explore exciting concepts related to flight instruments, aviation weather, & airplane performance
- FAA written private pilot exam
