

Website Design

Description

The digital revolution has not only changed an employee's work environment, but has affected consumer shopping habits, the entertainment industry, and overall communication methods. Computer and digital technologies have connected both our social and professional lives through advancements in the delivery of graphics, audio, video and animation through Websites. Tulsa Tech's Website Design program prepares students for careers in visual communications. Students incorporate Photoshop, Flash, Dreamweaver, and HTML5, XML, Javascript and CS5 into the design and development of multimedia projects, Websites and print materials. Project-based applications allow students to develop logos, ad banners, videos, animation, and a variety of Websites to be added to a digital portfolio.

- Develop your style & creativity in designing or enhancing websites
- Use Flash, Photoshop, Dreamweaver, XHTML, CS5
- Prepare for Certified Internet Webmaster (CIW) & Brainbench certifications
